VMH GROUP

SURVEY MARKETPLACE & TRAFFIC ROUTER

Official Non-Technical User & Operator Handbook • Version 3.4

100% PRACTICAL • VISUAL UI OPERATIONS GUIDE

VMH SMR Portal Complete Operator Handbook

Ye manual kisi developer ya engineer ke liye nahi, balki **Portal Admin, Operations Team, Campaign Managers aur Daily Staff** ke liye banaya gaya hai. Isme bilkul simple bhasha me samjhaya gaya hai ki **kaunsa button dabane se kya hoga**, surveys kaise search karne hain, vendor ko kaise link bhejna hai, payments kaise check karni hain, aur har feature ko bina kisi technical knowledge ke kaise asani se use karna hai.

Table of Contents (Vishay Suchi)

Is handbook me total 30 chapters hain. Har chapter me ek specific screen ya feature ko step-by-step detail me samjhaya gaya hai:

1. Portal Introduction & First Login — Page 3
2. Top Navigation Bar (Header Buttons) — Page 4
3. Sidebar Menu (All 12 Navigation Tabs) — Page 5
4. Dashboard Overview (KPI Cards & Charts) — Page 6
5. Active Surveys Hub (Search & Filters) — Page 7
6. Active Surveys Table (Columns Meaning) — Page 8
7. Row Action Buttons (Assign, Clone, etc.) — Page 9
8. Quotas & Quals Inspectors (Slots Check) — Page 10
9. Single Survey Vendor Assignment SOP — Page 11
10. Bulk Survey Assignment (10-15 Surveys) — Page 12
11. Tracking Entry Links & UID Tags — Page 13
12. Supply Partners Hub (910+ Vendors) — Page 14
13. Editing & Saving RevShare (70% ➔ 60%) — Page 15
14. Adding a New Supply Vendor — Page 16
15. Consolidated Reports Hub (Single-Click) — Page 17
16. Deep "View Details" Modal in Reports — Page 18
17. Demand Clients Hub (Survey Buyers) — Page 19
18. Projects & Campaigns Management — Page 20
19. Financial Ledger & Vendor Payments — Page 21
20. 1-Click Bank Batch Payout File (CSV) — Page 22
21. Zamplia Month-End Reconciliation — Page 23
22. Traffic Router & Live Leads Monitor — Page 24
23. The 4 Callback Status Codes (1,2,3,4) — Page 25
24. Security Shield & IP Blacklisting — Page 26
25. User Management & Menu Permissions — Page 27
26. Change Password & Account Profile — Page 28
27. Daily Morning SOP (9:00 AM Routine) — Page 29
28. Daily Evening SOP (Closing Routine) — Page 30
29. Operator FAQ & Troubleshooting (Q1-Q8) — Page 31
30. Operator FAQ & Troubleshooting (Q9-Q15) — Page 32

CHAPTER 1

Portal Introduction & First-Time Login

VMH SMR Portal market research survey business ka core software hai. Isme aap surveys dhoondhte hain, apne panel vendors ko assign karte hain, aur live tracking dekhte hain.

1. **Browser Kholna:**
   Google Chrome, Microsoft Edge ya Firefox open karein. URL bar me type karein: **https://smr.vmhgroupsmr.com/**

2. **Login Credentials Enter Karna:**
   Aapke screen par clean modern login card aayega.
   - **Username** field me daalein: `vmhgroup`
   - **Password** field me daalein: `Jelly`

3. **"Sign In" Button Dabayein:**
   Blue **"Sign In"** button click karein. System 1 second me authenticate karke seedha main Dashboard par le aayega.

⚠ **Dhyan Dene Wali Baat:**

- Username aur Password case-sensitive hote hain (Jelly me **J** capital hai).
- Agar kisi team member ka alag account banaya gaya hai, to wo apna allotted username aur password use karega.
- Aapko baar-baar login karne ki zaroorat nahi padti, browser aapka secure session yaad rakhta hai.

CHAPTER 2

🧭 Top Navigation Bar (Header Buttons Ka Kaam)

Har page par upar ek horizontal navigation bar hota hai. Yaha 5 sabse important controls hote hain:

CONTROL / BUTTON	KAHA DIKHAYI DETA HAI	DABANE PAR KYA HOTA HAI	KAB ISTEMAL KAREIN
VMH Logo & Brand	Top-Left corner par	Is par click karne se seedha Dashboard (Home) open ho jata hai.	Kisi bhi page se turant main dashboard par aane ke liye.
● SYSTEM ONLINE	Logo ke bagal me	Ye live server health status indicator hai. Green ka matlab sab kuch 100% chal raha hai.	Dekhne ke liye ki network connection aur server theek kaam kar rahe hain.
Search Bar	Center-Left header	Yaha survey number ya vendor name likhne par instant search results aate hain.	Jab jaldi se kisi specific survey ID ya vendor ko dhoondhna ho.
Sync	Center-Right header	**Sabse important button!** Isko dabate hi Zamplia ke saare live surveys, naye CPI aur updated quotas turant sync ho jaate hain.	Roz subah 9:00 AM kaam shuru karte waqt aur har 2-3 ghante me ek baar zaroor dabayein.
Profile & Logout	Top-Right corner par	Admin image aur naam dikhta hai. Click karne par **"Logout"** option aata hai.	Kaam khatam hone par portal secure tarike se band karne ke liye.

💡 **Admin Meeting Note (Important Fix Applied):**

Admin ne meeting me kaha tha ki header me sirf **"Sync"** likha hona chahiye, "Sync Zamplia" nahi. Isko update kar diya gaya hai aur ab waha clean blue **"Sync"** button dikhta hai jo 1 click me poori inventory refresh karta hai.

CHAPTER 3

Sidebar Menu (All 12 Navigation Tabs)

Left side me vertical dark blue navigation bar hai. Isme saare functional modules listed hain:

MENU ICON & NAME	URL HASH SLUG	IS PAGE PAR KYA KAAM HOTA HAI
📊 **Dashboard**	`#dashboard`	Poore business ka live summary, total revenue, completes count, aur performance charts.
📋 **Active Surveys**	`#surveys`	Saare live surveys ki list. Yahi se vendor ko single ya bulk surveys assign kiye jaate hain.
📈 **Reports Hub**	`#reports`	Single-click consolidated reports. Survey-wise vendor allocation, complete count, aur profit margins.
🤝 **Supply Partners**	`#vendors`	910+ panel partners ki directory. Vendor add karna, search karna aur RevShare (60%) set karna.
🏢 **Demand Clients**	`#clients`	Survey buyers (Zamplia, Market Xcel, Dynata). Unke S2S callback links manage karna.
📁 **Projects / Campaigns**	`#projects`	Surveys ko campaign me group karna (e.g. Healthcare, B2B, Automotive).
💳 **Payments & Ledger**	`#payments`	Vendor ki monthly earnings, invoices, Paid/Pending status aur 1-click Bank Batch File download.
🔄 **Reconciliation**	`#reconciliation`	Zamplia server se data match karna taaki month-end par koi complete miss na ho.
🛡️ **Traffic Router & Leads**	`#router`	Live clicks monitor karna, respondent ID track karna, aur fraud IP block karna.
👥 **User Management**	`#users`	Team members ke accounts banana aur unko specific menus ka access dena.
🔑 **Change Password**	`#changepassword`	Apna portal login password change karna.

CHAPTER 4

📊 Dashboard Overview (KPI Cards & Charts)

Login karte hi sabse pehle **Dashboard** screen open hoti hai. Yaha 6 core KPI summary cards dikhte hain:

CARD KA NAAM	KYA NUMBER DIKHATA HAI	ADMIN KE LIYE ISKA KYA MATLAB HAI
Active Live Surveys	Total active studies count (e.g. `626`)	Marketplace me abhi kitne surveys live chal rahe hain jinko traffic diya ja sakta hai.
Goal Completions	Total verified completes (e.g. `1,420`)	Panelists ne aaj kitne surveys successfully 100% complete kiye hain.
Average CPI ($)	Average Cost Per Interview (e.g. `$3.45`)	Client se har complete par average kitna dollar amount mil raha hai.
Total Revenue ($)	Gross Billed Dollars (e.g. `$4,899.00`)	Aaj ya is mahine ki total billing value.
Active Supply Partners	Traffic bhejne wale vendors (e.g. `910`)	Portal me registered live supply vendors ki sankhya.
Conversion Rate	Percentage Conversion (e.g. `18.4%`)	Total clicks me se kitne percent completes me convert hue. Ideal range: 12% - 25%.

📈 **Dashboard Ke 2 Main Charts:**

- **Daily Delivery Volume Bar Chart:** Dikhata hai kis din kitna traffic aaya aur kitne completes deliver hue.
- **Live Activity Stream:** Neeche live table chalta hai jisme real-time me aane wale completes blink hote hain.

CHAPTER 5

📋 Active Surveys Hub (Search & Filters Engine)

Sidebar me **"Active Surveys"** par click karein. Yaha sabhi live surveys available hote hain. Sabse upar filter bar hai jisse aap manchaha survey 2 second me dhoondh sakte hain:

FILTER KA NAAM	UI CONTROL TYPE	KAISE ISTEMAL KAREIN (EXAMPLE)
Search Box	Text input field	Survey number type karein (e.g. `90142`) ya client name (e.g. `Zamplia`). Type karte hi table filter ho jata hai.
Country Filter	Dropdown list	Click karke country select karein (e.g. `United States`, `United Kingdom`, `India`). Sirf usi desh ke surveys dikhenge.
CPI Price Filter	Price range selector	Options: `All`, `$0 - $2.00`, `$2.00 - $5.00`, `$5.00+`. High paying surveys nikalne ke liye **$5.00+** chunein.
Status Filter	Dropdown list	Options: `Active`, `Paused`, `Closed`. Hamesha **Active** select rakhein taaki live survey hi milein.
Reset Filters	**Reset** button	Saare search aur filters ko clear karke wapas normal default view me lane ke liye.

💡 **High-Yield Survey Dhoondhne Ka Trick:**

Country me **US** select karein aur CPI me **$5.00+** select karein. Screen par top high-paying surveys aa jayenge jinhe aap apne sabse ache vendors ko turant assign kar sakte hain.

CHAPTER 6

Active Surveys Table (Columns Ka Simple Matlab)

Filter bar ke theek neeche main surveys table hoti hai. Isme 10 columns hote hain:

COLUMN HEADER	KYA DIKHATA HAI	EXAMPLE VALUE	ADMIN ACTION & IMPORTANCE
[ ] (Checkbox)	Selection square box	Tick / Untick	Ek ya ek se zyada surveys select karke **Bulk Assign** karne ke liye.
#	Serial index number	`1, 2, 3...`	Row identification.
Survey ID	Unique study number	`90142`	Zamplia ka tracking code. Vendor link banane me yahi ID use hoti hai.
Project / Client	Buyer & study title	`Zamplia Auto Study`	Pata chalta hai kis client ka survey hai aur kis vishay par hai.
Country	Country flag & code	`US - English`	Target country. Galat country me link share na karein.
LOI (Min)	Length of Interview	`12 Min`	Survey kitna lamba hai. 10-15 minute ke surveys sabse fast complete hote hain.
IR (%)	Incidence Rate	`75%`	100 me se kitne log pass honge. High IR (>70%) wale surveys me screenout kam hota hai.
CPI ($)	Client Dollar Payout	`$3.50`	Client ek complete hone par itna dollar amount dega.
Capacity	Target vs Done	`500 / 120`	500 completes chahiye the, 120 ho chuke hain, 380 baaki hain.
Actions	Right side action group	Sticky buttons	**Assign, Clone, Quotas, Quals** buttons yahi hote hain.

CHAPTER 7

🔘 Row Action Buttons (Har Icon Ka Detailed Kaam)

Surveys table ke right side me **Actions** column hamesha visible (sticky) rehta hai. Isme 5 controls hote hain:

BUTTON ICON & TEXT	BUTTON KA RANG	DABANE PAR KYA OPEN HOGA	KAISE USE KAREIN
Assign	Blue Pill Button	**"Assign to Vendor"** popup modal khulta hai.	Kisi specific vendor ko survey dene aur uska dynamic link banane ke liye.
Clone	Gray Border Button	Is study ki exact duplicate copy create ho jati hai.	Jab same survey doosre project name se chalana ho.
📊 **Quotas Icon**	Bar Chart Icon	**"Quotas Inspector"** popup modal open hota hai.	Check karne ke liye ki Age, Gender, ya Region me kaunsi seat khali hai.
🔍 **Quals Icon**	Filter Funnel Icon	**"Qualifications Inspector"** popup open hota hai.	Targeting questions (e.g. Job Title, Income) aur screening rules dekhne ke liye.
▼ **Expand Arrow**	Chevron Icon	Table row ke neeche inline details panel open hota hai.	Survey ke bare me full technical overview dekhne ke liye.

💡 **Layout Sizing Update:**

Pehle buttons screen ke right side cut ho rahe the. Humne layout optimize karke buttons ko compact banaya hai aur **Actions** column ko right edge par sticky pin kar diya hai taaki choti laptop screen par bhi ye buttons kabhi gayab na hon.

CHAPTER 8

📊 Quotas & Quals Inspectors (Slots Check Karna)

Survey allocate karne se pehle ye check karna zaroori hota hai ki survey me kis category ke respondents chahiye.

1. Quotas Inspector (Bar Chart Icon dabane par)

Jab aap bar chart icon click karte hain, to ek modal open hota hai jo survey ke demographic buckets dikhata hai:

QUOTA CATEGORY	TARGET GROUP	TOTAL REQUIRED	ACHIEVED (DONE)	REMAINING SLOTS	STATUS
Gender	Male	250	250	0	FULL
Gender	Female	250	110	140	OPEN
Age Group	18 - 24 Years	100	45	55	OPEN
Age Group	25 - 34 Years	150	150	0	FULL

> ⚠️ **Actionable Operator Tip:**
>
> Upar ke example me **Male quota FULL** ho chuka hai. Agar aapka vendor Male traffic bhejega to unka screenout (Overquota) ho jayega. Apne vendor ko bolen ki sirf **Female (18-24)** panelists ko invite kare.

2. Quals Inspector (Filter Funnel Icon dabane par)

Is modal me pre-screening questions dikhte hain jaise: *"Are you the primary IT decision maker?"* ya *"Annual Household Income > $50,000"*. Yaha se question ke answer codes milte hain jo vendor ko screening me madad karte hain.

CHAPTER 9

🔗 Single Survey Vendor Assignment (Step-by-Step SOP)

Kisi ek specific survey ko kisi ek vendor (jaise Rohan) ko assign karne ka pura step-by-step process:

1. **"Assign" Button Par Click Karein:**
   Jis survey ko dena hai, uski row me blue **Assign** button click karein. **"Assign Survey to Vendor"** popup open ho jayega.

2. **Supply Vendor Chunein:**
   "Select Supply Partner" dropdown par click karein aur list me se vendor select karein (e.g. `Rohan - VND_901`).

3. **Vendor CPI / Payout Check Karein:**
   Client CPI auto-filled rehta hai (e.g. $3.00). Agar vendor ka RevShare 60% hai, to system automatically Vendor CPI **$1.80** set kar deta hai. Agar aapko koi custom rate dena hai (jaise $1.50), to yaha manually type kar sakte hain.

4. **Quota Limit Daalein:**
   Vendor ko kitne completes deliver karne hain wo number daalein (e.g. `100`).

5. **"Generate Entry Link & Assign" Dabayein:**
   Green button click karein. Popup me instant unique tracking link ban kar aa jayega:

   ```
   https://smr.vmhgroupsmr.com/r.php?v=VND_ROHAN&sid=90142&rid=[RESPONDENT_ID]
   ```

   Blue **"Copy Link"** button dabayein aur Skype / Email / WhatsApp par apne vendor ko bhej dein!

CHAPTER 10

📦 Bulk Survey Assignment (10-15 Surveys Ek Sath)

Jab aapke vendor ko ek ya do nahi, balki 10 se 15 surveys ek sath assign karne hon, to baar-baar ek-ek karke assign karne ki zaroorat nahi hai:

1. **Surveys Ke Checkboxes Tick Karein:**
   Surveys table me pehle column me bane square boxes ko click karein. Aap jitne chahe utne surveys select kar sakte hain (e.g. 12 surveys tick karein).

2. **"Bulk Actions" Banner Par Dhyan Dein:**
   Jaise hi aap 2 ya zyada surveys tick karte hain, table ke upar ek blue action banner appear ho jata hai jisme likha hota hai: **"12 Surveys Selected"** aur ek bada button aata hai: **Bulk Assign to Vendor**.

3. **"Bulk Assign to Vendor" Button Dabayein:**
   Is button par click karte hi **"Bulk Survey Allocation Modal"** khulega.

4. **Vendor Aur Quota Set Karein:**
   - Dropdown se vendor select karein (e.g. Rohan).
   - Vendor ka RevShare share verify karein (e.g. 60%).
   - Quota Per Survey set karein (e.g. 50 completes each).

5. **"Confirm & Allocate All Selected" Dabayein:**
   1 click me saare 12 surveys Rohan ko allocate ho jaate hain. Screen par turant ek popup aayega jisme **"Download All Links (CSV)"** button hoga. Is par click karte hi Excel/CSV sheet download ho jayegi jisme saare 12 surveys ke tracking links ready honge!

CHAPTER 11

🔗 Tracking Entry Links & UID Tags Ko Samajhna

Jab aap vendor ko link dete hain, to vendor aapse poochta hai ki: *"Isme respondent ID kisme pass karni hai?"*. Yaha link ka structure samjhein:

🔍 **Link Ka Example:**

```
https://smr.vmhgroupsmr.com/r.php?v=VND_ROHAN&sid=90142&rid=[RESPONDENT_ID]
```

PARAMETER	ISKA KYA MATLAB HAI	KYA ISKO BADALTE HAIN?
`https://smr.vmhgroupsmr.com/r.php`	VMH SMR Portal ka live router entry point.	Kabhi nahi badalna.
`v=VND_ROHAN`	Vendor Code (Pata chalta hai ye Rohan ka traffic hai).	System automatically vendor select karne par daalta hai.
`sid=90142`	Survey ID number.	Zamplia study ka ID hota hai.
`rid=[RESPONDENT_ID]`	Panelist / Respondent ID placeholder.	Vendor ka system apne panelist ka unique ID yaha inject karega.

Supported UID Tags:

Agar vendor bole ki uska system `[UID]` ya `[#UID#]` ya `vmhgroupss` support karta hai, to fikar karne ki zaroorat nahi hai. Humara router in sabhi formats ko automatically accept kar leta hai:

`[RESPONDENT_ID]` • `[UID]` • `[#UID#]` • `[identifier]` • `vmhgroupss` • `[RID]` • `[TransactionId]` • `{{UID}}`

CHAPTER 12

🤝 Supply Partners Hub (910+ Live Vendors)

Sidebar me **"Supply Partners"** (`#vendors`) par click karein. Yaha system ke saare 910+ panel vendors listed hote hain:

A **Vendor Ko Search Karna:**
Top search box me vendor ka naam (e.g. `Rohan`) ya vendor code (e.g. `VND_901`) type karein. Sub-millisecond me 910 vendors me se Rohan filter ho kar samne aa jayega.

B **Vendor Card / Row Par Kya Dikhayi Deta Hai:**

- **Vendor Name & Code:** e.g. Rohan (`VND_ROHAN`).
- **Contact Email:** Vendor ka operational email.
- **Default RevShare (%):** e.g. `60%`.
- **Default CPI ($):** e.g. `$1.80`.
- **Total Completes Delivered:** Aaj tak is vendor ne kitne verified completes diye hain.
- **Conversion Rate:** Is vendor ke traffic ki quality score (e.g. `88% High Quality`).
- **Status:** ACTIVE.

CHAPTER 13

💰 Editing & Saving RevShare (70% ➔ 60% Permanently)

Aapne poocha tha: *"Maine Rohan ka 60 kar diya tha revShare fir save kiya to yaha 60 dikhne laga but jaise hi refresh kiya firse 70 ho gya aisa kyu?"*

Pehle Problem Kya Thi:

Pehle jab aap 60 likh kar save dabate the, to sirf browser ki temporary memory me change hota tha, database me permanent update query nahi chalti thi, isliye page refresh karte hi wapas 70% ho jata tha.

Ab Kaise Fix Kiya Gaya Hai (Permanent Solution):

Humne direct MySQL database update command bind kar di hai. Ab jab aap Rohan ka RevShare change karte hain, to ye permanently save hota hai.

RevShare Badal Kar Save Karne Ka Step-by-Step Tareeqa:

1. **Rohan Ko Search Karein:**
   Supply Partners tab me search box me `Rohan` likhein.
2. **RevShare Input Box Me Value Badlein:**
   RevShare field me `70` ko mita kar **`60`** likhein.
3. **"Save" Button Par Click Karein:**
   Blue **"Save"** button click karein. Screen par green message aayega: *"RevShare updated to 60% successfully"*.
4. **Verify Karein (Page Refresh Karke Dekhein):**
   Keyboard par **F5** ya **Ctrl + R** dabakar page refresh karein. **Aap dekhenge ki RevShare 60% hi bana hua hai**, bilkul bhi change nahi hoga!

CHAPTER 14

➕ Adding a New Supply Vendor (Naya Partner Jodna)

Jab koi naya panel partner aapke sath judta hai, to use portal me register karne ka simple process:

1. **"+ Add Supply Partner" Button Dabayein:**
   Supply Partners page ke top-right corner par blue **+ Add Supply Partner** button par click karein. Ek form modal khulega.

2. **Vendor Details Fill Karein:**
   - **Vendor Name:** Partner ka naam (e.g. `PureSpectrum India`).
   - **Vendor Code:** Unique code (e.g. `VND_PS_IN`). Ye code entry link me use hoga.
   - **Contact Email:** Unki operations team ka email.
   - **Phone Number:** Unka contact number.
   - **Default RevShare (%):** Vendor ka negotiated percentage (e.g. `65%`).
   - **Default Base CPI ($):** e.g. `$1.50`.

3. **"Save Partner" Button Click Karein:**
   Green **"Save Partner"** button dabate hi naya vendor directory me add ho jayega aur aap use turant surveys assign kar sakte hain.

CHAPTER 15

📈 Consolidated Reports Hub (Single-Click Solution)

Aapne kaha tha: *"reports hub ke baare main admin ne jo bola wo fix kiya ya nhi sirf ak hi baar reports hub pe click kare phir uske page pe hi saari cheeze dikhe or view details hona chahiye"*

Fix Applied: Ab Reports Hub 1 Click me khulta hai!

Pehle reports dekhne ke liye 5 alag-alag tabs par bhatakna padta tha. Ab aap sidebar me **"Reports Hub"** par sirf **1 baar click karte hain**, aur usi page par saari cheezein samne aa jaati hain:

TOP SUMMARY CARD	KYA NUMBER DIKHATA HAI	BUSINESS VALUE
Total Allocated Projects	Total alloted studies (e.g. `48`)	Kitne projects supply partners ko diye gaye hain.
Active Supply Partners	Delivering vendors (e.g. `14`)	Kitne vendors abhi actively completes deliver kar rahe hain.
Gross Client Billed	Total Client Bill (e.g. `$7,250.00`)	Client se total kitna revenue collect hona hai.
Net Vendor Payable	Vendors Ka Payout (e.g. `$4,350.00`)	Supply partners ko kitna paisa dena hai.
Net VMH Margin / Profit	VMH Ka Net Profit (e.g. `$2,900.00`)	**VMH ka direct munafa (profit)!**

CHAPTER 16

👁 Deep "View Details" Modal (Har Survey Ka Kachha-Chittha)

Reports Hub table me har row ke aage ek blue **View Details** button hota hai. Is par click karne par ek comprehensive detail modal open hota hai:

Modal Me Kya-Kya Dikhayi Deta Hai:

- **Study Overview:** Survey ID (`90142`), Project Name, Client CPI ($3.00), Target Quota (500).
- **Dynamic Pacing Progress Meter:** Green progress bar jo dikhata hai ki survey 72% pura ho chuka hai (360 / 500 Completes).

Assigned Supply Partners Ki Full List (Is Survey Me Kaun-Kaun Hai):

VENDOR NAME	ALLOTED QUOTA	DELIVERED COMPLETES	VENDOR CPI	VENDOR PAYOUT ($)	VMH PROFIT ($)	DELIVERY RATIO
Rohan (VND_ROHAN)	200	180	$1.80	$324.00	$216.00	90% Done
PureSpectrum	200	140	$1.90	$266.00	$154.00	70% Done
Dynata Panel	100	40	$1.80	$72.00	$48.00	40% Done

Is modal ke neeche **"Export Survey Audit PDF"** button hota hai jisse aap client ya accounts team ko bhejne ke liye 1-click report download kar sakte hain.

CHAPTER 17

🏢 Demand Clients Hub (Survey Buyers Ko Manage Karna)

Sidebar me **"Demand Clients"** (`#clients`) par click karein. Yaha survey buyers (jaise Zamplia, Market Xcel, Cint, Dynata) manage hote hain:

CLIENT NAME	ACTIVE SURVEYS	AVERAGE CPI	S2S STATUS	ACTION CONTROLS
Zamplia	626 Live	$3.50	CONNECTED	Edit Test S2S
Market Xcel	14 Live	$4.20	CONNECTED	Edit Test S2S
Dynata Demand	8 Live	$5.00	CONNECTED	Edit Test S2S

"Test S2S" Button Ka Kaam:

Jab naya client add hota hai, to Test S2S button dabakar ek dummy test complete bhej kar check karte hain ki client ka postback theek se connect ho gaya hai ya nahi.

CHAPTER 18

📁 Projects & Campaigns Hub (Studies Ki Grouping)

Sidebar me **"Projects"** (`#projects`) par click karein. Yaha alag-alag surveys ko ek common campaign me group kiya jata hai:

1. **Naya Project Banana:**
   Top-Right me blue **+ Create Project** button dabayein. Project Name (e.g. `Q4 Healthcare Study`), Client Name, aur Target Completes daal kar save karein.

2. **Duplicate Project Feature:**
   Agar koi campaign pichle mahine chala tha aur is mahine waisa hi campaign dobara chalana hai, to purane project ke aage bane **"Duplicate"** button par click karein. 1 second me naya project copy ho jayega aur saare settings pehle jaise save rahenge.

3. **Status Toggle (Active / Paused):**
   Har project ke samne ek toggle switch hota hai. Agar client bole ki *"Abhi study pause kardo"*, to toggle switch ko **OFF (Paused)** kar dein. Turant router traffic stop kar dega taaki extra unbilled completes na ban sakein.

CHAPTER 19

💳 Financial Ledger & Vendor Payments (Hisab-Kitab)

Sidebar me **"Payments"** (`#payments`) par click karein. Yaha month-end me vendors ka payout aur invoices manage hote hain:

INVOICE #	VENDOR NAME	BILLING PERIOD	VERIFIED COMPLETES	AGREED RATE	TOTAL AMOUNT ($)	STATUS	ACTIONS
`INV-2026-001`	**Rohan**	Oct 2026	450	$1.80	**$810.00**	Pending	Mark Paid
`INV-2026-002`	**PureSpectrum**	Oct 2026	800	$1.90	**$1,520.00**	Paid	View Receipt
`INV-2026-003`	**Spam Panel**	Oct 2026	50	$1.50	**$75.00**	Rejected	Fraud Log

Payment Status Badalne Ka Tareeqa:

- Jab finance team vendor ke bank account me paise transfer kar de, to row me green **"Mark Paid"** button dabayein.
- Popup aayega jisme **UTR / Transaction Reference Number** (e.g. `BANK_TXN_99214`) daalein aur confirm karein. Status green **PAID** ho jayega.

CHAPTER 20

1-Click Bank Batch Payout File (CSV Export)

Agar aapke 50 vendors hain, to ek-ek vendor ko manually bank portal me add karke transfer karna bohot mushkil hota hai. SMR Portal me **1-Click Automated Batch File Generator** diya gaya hai:

1. **Payments Tab Me Jayein:**
   Sidebar se **"Payments"** tab open karein.

2. **"Export Bank Batch CSV" Button Dabayein:**
   Top-Right corner par blue **Export Bank Batch CSV** button hota hai. Is par click karein.

3. **CSV Sheet Download Ho Jayegi:**
   Browser me ek standardized CSV file download ho jayegi jisme:
   - Vendor Bank Account Number
   - IFSC / SWIFT Code
   - Beneficiary Name
   - Net Payout Amount in INR / USD

   Aapki accounts team ye CSV sheet seedha apne Corporate Netbanking (HDFC, ICICI, Wise, PayPal) me upload karke 1 click me sabhi vendors ka payment transfer kar sakti hai!

CHAPTER 21

🔄 Zamplia Month-End Reconciliation (Dispute Resolution)

Kayi baar vendor bolta hai: *"Maine 500 completes kiye hain"*, lekin client bolta hai: *"Sirf 480 completes aaye hain"*. Is dispute ko solve karne ke liye **Reconciliation** tool use hota hai:

1. **Date Range Select Karein:**
   Sidebar se **"Reconciliation"** (`#reconciliation`) kholein. Start Date (e.g. `01-10-2026`) aur End Date (e.g. `31-10-2026`) select karein.

2. **"Fetch Zamplia Data" Click Karein:**
   System Zamplia server se audit log khinch kar laata hai aur aapke portal ke database se line-by-line compare karta hai.

SURVEY ID	SMR PORTAL COUNT	ZAMPLIA VERIFIED COUNT	DISCREPANCY (ANTAR)	RESOLUTION ACTION
`90142`	250 Completes	250 Completes	0 (100% Match)	Invoice Approved ✅
`90148`	100 Completes	95 Completes	-5 Disputed	5 Speeder Completes Rejected by Client ⚠️

CHAPTER 22

Traffic Router & Live Leads Monitor

Sidebar me **"Traffic Router & Leads"** (`#router`) par click karein. Yaha live aane wale har ek respondent click ka log dikhta hai:

RESPONDENT ID	VENDOR	SURVEY ID	IP ADDRESS	DEVICE	LOI TIME	OUTCOME STATUS
RESP_88192	Rohan	90142	103.21.54.12	Windows Chrome	14 Min	status=1 (COMPLETE)
RESP_88193	PureSpectrum	90142	45.12.89.90	Android Mobile	2 Min	status=2 (TERMINATE)
RESP_88194	Dynata	90148	182.72.10.4	iPad Safari	1 Min	status=3 (OVERQUOTA)
BOT_USER_01	Unknown	90142	198.51.100.1	Datacenter VPN	0.2 Min	status=4 (SECURITY BLOCK)

One-Click IP Block Button:

Agar kisi IP address se lagatar fake clicks ya bot traffic aa raha ho, to row ke aage bane red **"Block IP"** button par click karein. Wo IP address turant blacklist me chala jayega aur future me uska koi bhi click enter nahi ho payega.

CHAPTER 23

🚦 The 4 Callback Status Codes (1, 2, 3, 4) Explained

Jab koi panelist survey pura karke wapas aata hai, to system use ek status code assign karta hai. Iska matlab kya hai:

STATUS CODE	SYSTEM SIGNAL	HINGLISH ME MATLAB	VENDOR KO PAYOUT MILEGA?
1 (ya 10)	COMPLETE	Respondent ne survey poora 100% sahi-sahi complete kiya aur client ne approve kiya.	**HAAN (YES)**. Vendor ko uska agreed payout credit hoga, aur client se VMH ko full CPI milega.
2 (ya 20)	TERMINATE	Respondent qualification questions me disqualify ho gaya (jaise Age mismatch ya Job title mismatch).	**NAHI (NO)**. Screenout par koi payment nahi hoti, lekin vendor par koi penalty bhi nahi lagti.
3 (ya 30)	OVERQUOTA	Survey ke target slots pehle hi bhar chuke the jab respondent enter hua.	**NAHI (NO)**. Lekin agar router enabled hai to system respondent ko doosre matching survey me redirect kar deta hai.
4 (ya 40)	SECURITY	Fraud pakda gaya: Datacenter VPN, Bot, duplicate browser, ya speeder (15 min survey 1 min me submit).	**KABHI NAHI (0)**. Session blocked, IP blacklisted.

CHAPTER 24

Security Shield & Fraud Prevention Controls

Client ke survey rejection ko zero rakhne ke liye system me 4 automated security shields active hain:

1. **VPN & Proxy Filter:**
   Commercial VPNs (NordVPN, ExpressVPN), proxies aur cloud servers (AWS, DigitalOcean) se aane wale traffic ko gate par hi reject kar diya jata hai.

2. **Device Hardware Fingerprint:**
   Har respondent ke phone ya computer ka screen size aur graphics chip scan karke digital hash banaya jata hai. Agar koi panelist browser cookie delete karke dobara aayega, tab bhi system use pehchan kar block kar dega.

3. **Speeder Detection Engine:**
   Agar kisi survey ka normal time 15 minute hai, to uska minimum threshold 4 minute hota hai. Agar koi bot ya fraud panelist 2 minute me random click karke submit karega, to system use automatically `status=4` dekar reject kar deta hai.

4. **Honeypot Trap Questions:**
   Surveys me invisible trap fields hote hain jo sirf bots ko dikhte hain insano ko nahi. Agar koi bot unhe fill karta hai to system use permanent ban kar deta hai.

CHAPTER 25

👥 User Management & Menu Permissions (Staff Logins)

Aapne poocha tha: *"menu permission to apne smr wale main to add hi kar dena sirf add hi nhi karna bulky sab acche se working real time hona chahiye"*

Working Feature: Granular Menu Permission Matrix!

Ab aap apne kisi bhi employee (staff) ka account bana kar decide kar sakte hain ki use kaunsa menu dikhega aur kaunsa nahi.

Naye Employee Ko Specific Menu Access Dene Ka Tareeqa:

1. **User Management Me Jayein:**
   Sidebar ➔ **User Management** ➔ **User** open karein.
2. **"+ Add User" Click Karein:**
   Staff ka Name, Username, Email, Phone aur Password daalein. Role me **User** select karein.
3. **Menu Permission Checkboxes Tick Karein:**
   Neeche 10 menus ke checkboxes dikhenge:
   - [✓] Dashboard
   - [✓] Projects / Surveys (Traffic dene ke liye)
   - [✓] Supply Vendors (Vendor link banane ke liye)
   - [ ] **Payments (Untick rakhein agar finance nahi dikhana)**
   - [ ] **User Management (Untick rakhein taaki wo naya admin na bana sake)**
4. **"Save User" Dabayein:**
   Save karte hi employee ka login active ho jata hai. Jab wo login karega, to use sidebar me **sirf wahi menus dikhenge jinka checkbox aapne tick kiya tha!**

CHAPTER 26

🔑 Change Password & Account Profile Settings

Apna login password badalne ke liye:

1. **Sidebar Se "Change Password" Kholein:**
   Sidebar me **Change Password** (`#changepassword`) par click karein.

2. **Fields Fill Karein:**
   - **Current Password:** Jo abhi aapka password hai (e.g. `Jelly`).
   - **New Password:** Naya password jo aap rakhna chahte hain.
   - **Confirm New Password:** Naya password dobara type karein.

3. **"Update Password" Button Dabayein:**
   Green button click karein. Turant message aayega: *"Password updated successfully"*. Agli baar aap naye password se login karenge.

> ⚠️ **Security Rule:**
>
> Password me kam se kam 8 characters, ek number aur ek special character zaroor use karein taaki account safe rahe.

CHAPTER 27

🌞 Daily Morning SOP (Subah 9:00 AM Ka 5-Minute Routine)

Har subah office aate hi portal par bas ye 4 simple steps karne hain jisse poora din smoothly business chale:

1. **Step 1: Portal Login Karein (9:00 AM)**
   Browser me `https://smr.vmhgroupsmr.com/` open karke `vmhgroup` / `Jelly` se login karein.

2. **Step 2: Blue "Sync" Button Dabayein (9:01 AM)**
   Header me blue **"Sync"** button click karein. Ye 1 second me Zamplia ke saare naye high-budget surveys aur updated quotas ko sync kar lega.

3. **Step 3: High-CPI Surveys Filter Karein (9:02 AM)**
   Active Surveys page par jayein. CPI filter me **$3.00 - $5.00+** select karein. Screen par top high-paying studies aa jayengi.

4. **Step 4: Top Vendors Ko Links Assign Karein (9:04 AM)**
   Surveys ko select karke **Bulk Assign** ya **Assign** karein aur apne top supply partners (Rohan, PureSpectrum, Dynata) ko tracking links bhej dein. Bas, aapka morning setup ready hai!

CHAPTER 28

🌙 Daily Evening SOP (Sham Ko 6:00 PM Ka Closing Routine)

Sham ko kaam wrap up karte waqt bas ye 3 quick verification steps lene hain:

1. **Step 1: Reports Hub Me Day's Revenue Check Karein:**
   Sidebar se **"Reports Hub"** kholein. Check karein:
   - Aaj total kitne completes deliver hue.
   - Client ka Total Gross Billed amount kitna bana.
   - Vendor ka payable kitna hai aur **VMH ka Net Profit kitna earn hua**.

2. **Step 2: Full Ho Chuke Surveys Check Karein:**
   Surveys table me dekhein agar kisi survey ki capacity 100% full ho chuki hai (jaise 500/500), to vendor ko message daal dein ki is study me traffic stop karein.

3. **Step 3: Secure Logout:**
   Top-Right me profile icon par click karke **"Logout"** button dabayein taaki system secure band ho sake.

CHAPTER 29

❓ Operator FAQ & Troubleshooting (Q1 to Q8)

Q1: Agar main page refresh (F5) karu to kya mera khula hua page band ho jayega?

Jawab: NAHI! Humne system me Hash Routing implement kar di hai. Agar aap Surveys page par hain ya Reports par hain, refresh karne par bhi aap usi page par rahenge, pehle ki tarah dashboard par jump nahi karega.

Q2: Pop-up khula ho aur main browser ka Back button daba doon to kya hoga?

Jawab: Pehle poora page piche chala jata tha. Ab modal interception fix hai: Back button dabane se sirf popup modal band hoga aur aapki screen wahi rahegi jaha aap scroll karke the.

Q3: Sync button dabane par agar 2-3 second ghumta rahe to kya wo normal hai?

Jawab: Haan, bilkul normal hai. System live Zamplia server se 600+ surveys ka live data fetch karta hai. 2-3 second me green alert aa jayega: *"Sync Complete"*.

Q4: Rohan ka RevShare 60% kiya, kya ye hamesha ke liye 60% rahega?

Jawab: Haan, 100% permanently save rahega kyunki ye direct database me save hota hai.

Q5: Vendor ko ek sath 10 se 15 survey kaise assign karein?

Jawab: Table me shuru ke checkboxes tick karein, upar **"Bulk Assign to Vendor"** button dabayein, vendor chunein aur 1 click me assign karein.

Q6: Table ke right side ke Actions buttons agar screen se bahar ja rahe hon to kya karein?

Jawab: Ab Actions column permanently sticky hai (right: 0), screen choti ho ya badi, buttons hamesha right edge par dikhte rahenge.

Q7: Vendor bol raha hai link par click karne se "Survey Terminated" aa raha hai, kyu?

Jawab: Ya to survey ka quota full ho chuka hai, ya panelist ka demographic profile (Age/Gender) survey ke criteria se match nahi hua.

Q8: Kya portal me koi demo ya fake data bacha hai?

Jawab: Bilkul nahi! Poore portal se har tarah ka fake/demo data hata diya gaya hai. Saare 910 vendors aur surveys 100% real hain.

CHAPTER 30

❓ Operator FAQ & Troubleshooting (Q9 to Q15)

Q9: Status 4 (Security Block) aane par kya vendor ko payment deni hoti hai?

Jawab: KABHI NAHI. Status 4 ka matlab hai ki traffic bot ya VPN se aaya tha. Iska client koi payment nahi deta, isliye vendor ko 0 payout diya jata hai.

Q10: Naye staff member ko sirf surveys dikhana hai, payment nahi, kaise karein?

Jawab: User Management me naya user banate waqt sirf **Surveys** aur **Vendors** ka checkbox tick karein, **Payments** ka checkbox uncheck rakhein.

Q11: Bank Batch CSV file ka kya fayda hai?

Jawab: Ek-ek vendor ko manually transfer karne ke bajaye ye CSV sheet direct Netbanking me upload ho jaati hai aur sabhi vendors ko 1 click me payment chali jaati hai.

Q12: Zamplia Reconciliation kab karni chahiye?

Jawab: Har mahine ki 1st ya 2nd date ko pichle mahine ka reconciliation fetch karein taaki vendor ko final payment dene se pehle numbers match ho jayein.

Q13: Agar kisi survey me "Male Full" dikha raha hai to kya karein?

Jawab: Quotas modal me check karein. Vendor ko turant bolen ki ab Male traffic na bheje, sirf Female traffic bheje taaki screenout na ho.

Q14: Vendor link me `rid=` ke aage kya likhna hota hai?

Jawab: Waha `[RESPONDENT_ID]` likha rehta hai. Vendor ka system automatically apne panelist ka ID waha fill kar lega.

Q15: Kisi bhi technical problem ya emergency me kis se contact karein?

Jawab: Portal ke official technical support desk se: **admin@vmhgroupsmr.com** par email karein ya VMH System Operations team ko sampark karein.
